

LODLF was happy to be able to help two additional members of our community this month. We saw their urgent need, and agreed that we would do what we could to help them.

Mark Rodriguez

Mark was the recipient of a double lung transplant in October of last year; he has been unemployed since that time, though he is working to try to find employment to care for his family. We paid \$300 to his landlord for rent.

Theresa Fuentes

Theresa's daughter Emilia, who is a mother of two daughters, was diagnosed with ovarian cancer, and she and her daughters recently moved in with Theresa. Her limited income has been stretched to care for daughter and granddaughter. We paid \$300 to Amerigas to supply them with propane.

Thank you for participating in this community-focused organization.
Los Ojos de la Familia
